Changing lives in Kenya with a toilet

Class 7 at Mutairu Primary school in Ngomeni, Kenya now has something we all take for granted - a sanitary toilet. Without separate facilities there is little privacy and little reason for girls to stay in school past puberty. Toilets not only save lives, they have the power

Learn about the sanitation crisis

Even modest improvements save lives. Together we can find solutions to many of the issues surrounding the crisis. [Learn more...](#)

World Toilet Day

Each year on November 19 we spotlight the global sanitation crisis and the collective efforts underway to get solutions to those in need. Unlike the water crisis, we'll need to go door-to-door to solve this massive issue. Left

Four ways a toilet can change a girl's life

Read more...

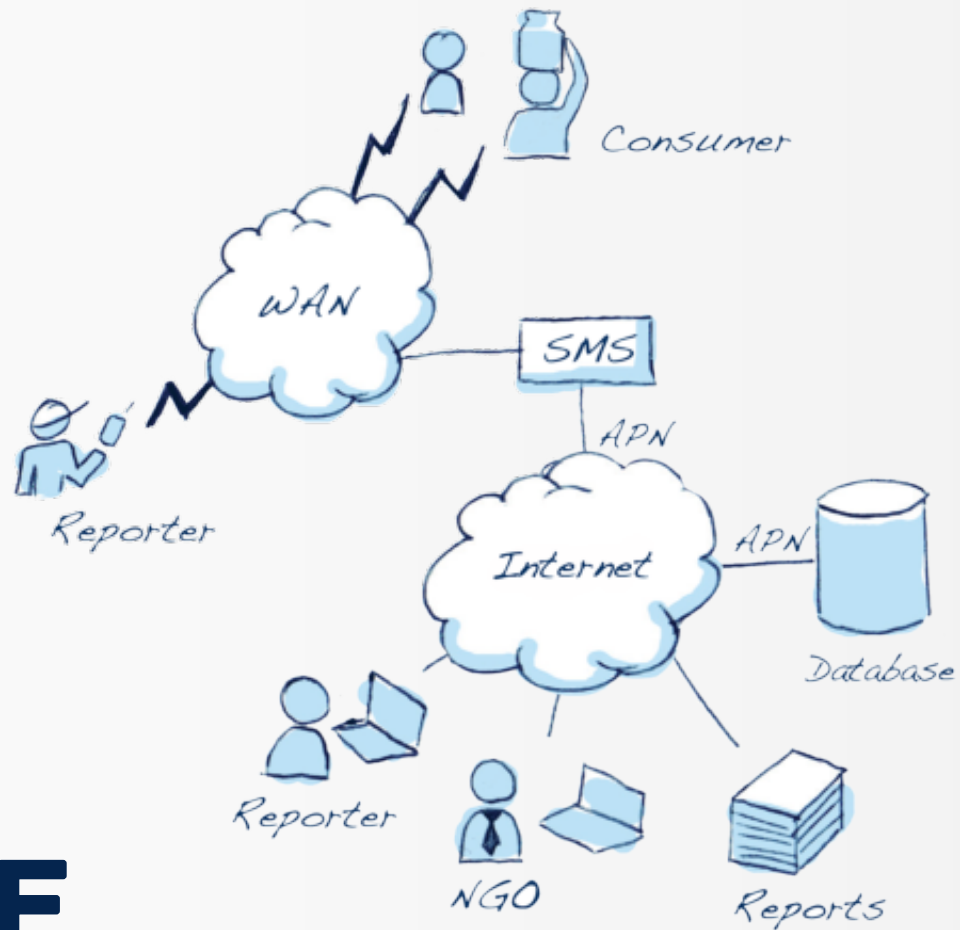

In some parts of the world we don't give it a single thought. But for millions of girls, no toilet continues a cycle of poverty and limits opportunities.
